International Workshop on
Effective Field Theories
from the Pion to the Upsilon

 2-6 february 2009   Valencia   Jardí Botànic

How to configure *eduroam* (WIRELESS network) in Mac OS

Step 1: Go to AirPort

a. From the **Apple** menu, select **System Preferences**.

b. Click once on the **Network** system preference in the **Internet & Network** section.

Step 2: Connect to eduroam

a. Select **AirPort** to **On**. Also click to select **Show AirPort status in menu bar**.

b. In the **Wireless Network** tab, type **eduroam**.

c. Enter the **User name** and **Password**.

 User name: eft09
 Password: pionupsilon

d. Click **Apply**.

Congratulations! You have connected to eduroam!
