

# FLASY 2011

---

**1<sup>st</sup> Workshop on Flavor Symmetries and consequences in Accelerators and Cosmology**  
**11 – 14 July 2011, Valencia (Spain)**  
<http://ific.uv.es/~flasy2011/>

This workshop provides a new forum to discuss the latest results in theoretical flavor symmetries, new physics scenarios to be tested in future neutrino and cosmology experiments and dark matter searches. The workshop consists of invited and contributed talks. Young researchers participation is welcome.

## Topics covered by the conference:

**Global fit of neutrino oscillations and neutrino mixing matrices**

**Continuous and discrete symmetries**

**Grand unified models**

**Dark matter**

**Flavor symmetries and collider phenomenology**

**Neutrinoless double beta decay**

**Abstract submission deadline is 20 May 2011**  
**Registration deadline is 10th June 2011**  
**Participants may register using the mail address**
